

Texas A&M @ Work

VERSION 1

Texas A&M Launches New Event Permit System (Long)

Texas A&M University is excited to announce a more efficient process for obtaining permits to host special events on campus starting in the spring of 2026!

The new event permitting system offers a centralized portal for submitting applications, tracking approvals, and coordinating with various university departments, setting the stage for smooth planning and facilitating the successful planning of events while prioritizing safety, compliance, and minimal disruption to our daily university operations.

Special events foster community engagement and can vary from large gatherings and campus-wide celebrations to special occurrences such as high-profile speakers and major festivals. Certain exemptions apply, including NCAA sporting events and expressive activities, making it easier for the campus community to participate in varied activities.

To support organizers in creating memorable experiences, the university has developed a Special Event Requirements Guide outlining essential safety considerations and regulatory requirements to ensure everything goes off without a hitch.

For additional information or assistance, visit the FAQs on the [University Center & Special Events Permit webpage](#) or email eventpermit@tamu.edu.

Texas A&M Launches New Event Permit System to (Short)

Texas A&M University is introducing a new event permit system starting in spring 2026 to streamline the application process for hosting special events on campus. The centralized portal will help organizers submit applications, track approvals, and coordinate with university departments, ensuring smooth planning while prioritizing safety and compliance.

This system applies to various events, from large gatherings to high-profile speakers, with exemptions for NCAA sporting events and expressive activities. A Special Event Requirements Guide will also assist organizers with safety and regulatory considerations.

For additional information or assistance, visit the FAQs on the [University Center & Special Events Permit webpage](#) or email eventpermit@tamu.edu.

VERSION 2

Introducing Texas A&M's New Event Permit System! (Long)

The Division of Operations is excited to announce that Texas A&M University is introducing a streamlined and user-friendly process for obtaining event permits, set to launch in the spring of 2026!

This innovative event permitting system will feature a centralized portal that makes it easier than ever to submit applications, track approvals, and collaborate with various university departments. It will also ensure smooth and efficient event planning, all while prioritizing safety and maintaining the continuity of daily operations within the university community.

Special events play a vital role in bringing our community together, whether it's large gatherings, campus-wide celebrations, or the visits of high-profile speakers. However, certain exemptions, including NCAA sporting events and expressive activities, must apply to categorizing the events to consider under the new process.

To help organizers create memorable events, the Division of Operations has developed a Special Event Requirements Guide outlining essential safety considerations and regulations to enhance the success of special events on campus.

For questions or additional information, check out the FAQs on the [University Center & Special Events Permit webpage](#) or email eventpermit@tamu.edu.

Introducing Texas A&M's New Event Permit System! (Short)

Texas A&M University is launching a new event permit system in spring 2026 to simplify the process of obtaining event permits. This user-friendly system will include a centralized portal for submitting applications, tracking approvals, and collaborating with university departments, all while prioritizing safety and daily operations.

Special events like large gatherings and campus celebrations are essential for community engagement, though exemptions like NCAA sporting events will apply. The Division of Operations has also created a Special Event Requirements Guide to aid organizers in ensuring successful events.
